

## Central Venous Catheter Insertion (IJ TLC) – Clinical Assessment

| Clinical Checklist  | Completed Correctly & Independently | Required Prompting or Assistance |
|---|-------------------------------------|----------------------------------|
| Appropriately considered indications and contraindications  | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Properly positioned patient and arranged equipment  | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Identified a patent IJ using compression to level of clavicle   | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Continuously visualized tip of needle with 'follow the tip' technique                                     | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Confirmed guidewire position within the IJ by ultrasound in both short and long axis                      | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Advanced catheter to a sufficient depth   | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Maintained control of the guidewire throughout the procedure AND removed it once catheter was in position | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Confirmed venous blood return in each port  | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Secured catheter to skin and applied sterile dressing   | <input type="checkbox"/>            | <input type="checkbox"/>         |
| Maintained sterile technique and addressed contamination, if occurred                                     | <input type="checkbox"/>            | <input type="checkbox"/>         |

| Global Skills Assessment (GSA): Which of the following best describes the provider's skill level?   |   |  |  |   |
|---|---|--|--|---|
| <input type="checkbox"/>  | <input type="checkbox"/>  | <input type="checkbox"/>   | <input type="checkbox"/>   | <input type="checkbox"/>  |
| <b>Novice</b><br>Movements guided by verbal instruction or through trial and error. Unable to anticipate subsequent steps or adjust for new conditions. | <b>Beginner</b><br>Knowledgeable about appropriate steps but still familiarizing with equipment and inefficient or awkward movements and positioning. | <b>Intermediate</b><br>Self-directed movements with increased efficiency and planning. Success with uncomplicated procedures. But slow to recognize high-risk conditions, fails to request assistance when needed or and not familiar with best troubleshooting methods. | <b>Proficient</b><br>Smooth and well-coordinated movements. Readily identifies unexpected or high-risk conditions. Familiar with troubleshooting options and appropriately seeks assistance when needed for higher level considerations. | <b>Expert</b><br>Efficient, well-planned, and fluid movements. Facile with all equipment and seamlessly adjusts for new conditions with effectively implemented troubleshooting techniques. |

|   |
|---|
| <b>Entrustment to perform WITHOUT direct supervision</b>  |
| <input type="checkbox"/> I entrust this provider to perform this procedure safely and effectively WITHOUT direct supervision. I believe they will appropriately identify situations beyond their skill and recruit the necessary supervision before proceeding. |
